

Jason Walkow

DESIGNER + DEVELOPER

I'm a remote-based Web Designer + Developer with a passion for creating fun, clean, and sensible user experiences, and bringing those designs to life through lean and functional front-end development.

Work

- 2014-PRESENT**

JASONWALKOW.COM
Freelance Developer and Designer
 Designed and developed websites and various graphics for small businesses, start-ups, and personal clients, including Unmute App, A&M Tree Services, AATA, The LeFlore Group, Compliagent, and Ray Hughes Management.
- 2016-2017**

LAKANA
Front-End Developer and Designer
 Remote front-end design and development for digital agency using Adobe Suite, Sketch3, HTML, CSS, JavaScript, and CMS development. A hybrid designer/developer role with skills and experience in both visual design for client adwork as well as front-end web development. Experience in copywriting and marketing design.
- 2015-2016**

WOAHSTORK
Front-End Developer and Designer
 Front-end design and development for start-up using Adobe Suite, Sketch3, HTML, CSS, JavaScript, and C#. WoahStork's web application is built in Angular and seeks to revolutionize online ordering for the cannabis industry using a machine-learning algorithm.
- 2014-2016**

COMPLIAGENT
Front-End Developer and Designer
 Built custom Squarespace website and created a social media calendar that allowed the company to reach the healthcare community and increase brand awareness. Designed, developed, and maintained Compliagent's HIPAA Toolkit product.
